FOOD CHOPPER

Is especially useful for smaller food items, that can be tricky to hold whilst chopping with a sharp knife. The Food Chopper houses the ingredients within the container and using the plunger handle neatly chops into small pieces, reducing the risk of cutting your fingers on a sharp knife, providing great peace of mind.

Features:

- » Safely cut and chop food
- » Simple push mechanism to chop food easily
- » Container holds food whilst chopping
- » Stainless steel blades
- » Easy to wash
- » Non-Slip base
